November 2, 2023

Dear Counselor,

Over the last few weeks, I've had the pleasure of speaking with *at least* 200 people regarding the upcoming changes to the Digital SAT and how to prepare for college applications. One of these events was at the LICAC conference on October 20th at SUNY Old Westbury. If you missed our booth at the Expo, please look for us at the upcoming NYSSCA conference in November. We will be there to share information about testing and admissions, the digital SAT, and what we can provide schools in terms of professional development for college essay writing and test preparation.

If you'd like a PD course at your school's next conference day, let our testing experts share everything you need to know to prepare your students for the Digital SAT. Curvebreakers owner, Nicholas LaPoma, and his team will cover several crucial topics for your students to achieve success on the brand-new SAT.

This free PD course runs about 1-2 hours and includes the following topics:

- New terms specific to the format and structure of the digital SAT
- SAT content changes to Reading, Writing, and Math sections
- How the traditional, paper-and-pencil SAT compares to the digital SAT
- How to take a practice test on College Board's Bluebook app
- How to take diagnostic digital SAT practice tests that aid in preparation
- How the class of 2025 should approach preparation for the digital SAT or ACT
- How the ACT compares to the digital SAT
- Curvebreakers' services for the digital SAT and other exams

Call (516) 728-1561 or complete this form - <https://tinyurl.com/5esxretw> - if you're interested in holding a PD course at your school. Our School Partnerships Coordinator, Ryan Russo, will be in touch with you to get the ball rolling.

Sincerely,

Nicholas LaPoma
Owner of Curvebreakers
