October 6, 2023

Dear Counselor,

Students and their parents are invited to join me on **Thursday, October 19th at 7:30 PM** for a Zoom webinar about the **Digital SAT**. Attendees will gain a solid understanding of the differences between the current SAT and the digital SAT and how it affects preparation. I gave a similar presentation to school counselors on the NYSSCA community platform last Friday. You're welcome to watch a recording of this presentation and download a PDF of the flier for the parent webinar on our website: **[curvebreakerstestprep.com/nyssca](http://curvebreakerstestprep.com/nyssca)**

Are you attending **LICAC at SUNY Old Westbury on Friday, October 20th**? If you are, please stop by our booth at the College Expo between 10:00 - 10:45 AM and say hello. We'd be interested in hearing how your school is preparing for the digital SAT and would like to answer any questions you may have.

Our main goal this fall is to help inform school staff, parents, and students about the changes to the exam. On the student side of things, many are happy about the shorter test and the ability to use a calculator on the entire exam. While on the administration side, there are a lot of logistical and technical challenges to prepare for.

As always, sitting for a diagnostic test to get a baseline and to help decide between the SAT and ACT is the best way to get started. If students are not taking the PSAT this month and are interested in a diagnostic, digital SAT practice test, they may take one complimentary test here at our office in Garden City.

Lastly, **registration is now open for SAT and ACT winter / spring classes**. Please share the class flier with your students as well.

Sincerely,

Nicholas LaPoma  
Owner of Curvebreakers
