

COLLEGE ESSAY WRITING *with Curvebreakers*

COLLEGE ESSAY Writing

Admissions officers are placing more importance on students' college essays as they look past test scores and indistinguishable GPAs to understand more about the personality and values held by potential students. An ineffective essay or one that hits the wrong tone can negatively impact students' acceptances.

Curvebreakers will ensure that each student's selected topic and intended message:

- 1) is appropriate for college admissions and
- 2) stands out from other applicants.

In a 1-to-1 or small-group setting, Curvebreakers' college essay services lead students through **brainstorming, topic development, outlining & drafting, and editing and revising.**
